## SEVEN BOTANICALS

Vienna, 2018. What started as a crazy idea became Schani's Gin: one that carries our signature and captures a bit of our personality. We tinkered, we refined, we mixed – and in the end, the list of ingredients consisted of seven herbs, fruits and spices. Simply put, “Seven Botanicals”.

### WATCH OUT

Vienna, 1913. Colonel Alfred Redl is deputy director of the military intelligence headquarter and serves a glass of cognac to every visitor, regardless of the time of day. It appears to be a friendly gesture, but with a fatal background: he uses the glass to collect fingerprints – unknown to them, he is actually a spy in Russian service.
